## TO WHOM IT MAY CONCERN

This is to certify that M/s. INDO PUMP, NASHIK, had supplied us zero leak Masecuite pump with mech. Seal and bearing arrangement. 1) IF-1000, 50 T/hr., H-30 mtr. in season 2010-2011. We found that pump is working very smoothly. Masecuite leakage was totally stopped. We found that less power consumption than without bearing type old Masecuite pumps. We are happy with the performance of the INDO PUMP make above masecuite pump. We wish every success to them in future.
